

DO YOU OFFER EDUCATIONAL SERVICES TO K-12 HOOSIER STUDENTS?

Becoming an Approved Provider within the Indiana Education Scholarship Account program will allow you to provide services to and accept payment from ESA students. **These are students who otherwise would be unable to afford additional educational services.**

On average, an ESA student receives \$17,500 annually. These funds can be used for a wide variety of therapies, paraprofessionals, educational programs and camps, transportation, and much more.

Both business and individuals can be Approved Providers. Documentation required during registration can vary depending on services offered. Typical documents requested are business licenses, employee lists, and any professional licenses or certifications.

APPLICATIONS OPEN NOW!
